Mujeres

No se quien las invento...

no se quien nos hizo ese favor...

tuvo que ser dios

que vio al hombre tan solo

y sin dudarlo

penso en dos... en dos

Dicen que fue una costilla

hubiese dado mi columna vertebral...

por verlas andar

depues de hacer el amor

hasta el tocador

y sin voltear... sin voltear...

sin voltear

Y si habitaran la luna

habrian mas astronautas que

arenas en el mar

mas viajes al espacio que historias

en un bar... en un bar

porque negar

que son lo mejor que se puso

en este lugar

Mujeres

lo que nos pidan podemos

si no podemos no existe

y si no existe lo inventamos

por ustedes

mujeres

lo que nos pidan podemos

si no podemos no existe

y si no existe lo inventamos

por ustedes

<mark>mujeres</mark>

que hubiera escrito Neruda

que habria pintado Picasso

si no existieran musas como ustedes

Nosotros con el machismo

ustedes al feminismo... y al final

don't know who invented them

don't know who made us that favour

it must have been God

who saw the man so alone

and without a doubt

thought about two... about two

they say it was a rib

i'd have given my spine

to watch you walk

after making love

to the dressing table

and without turn back...without turn back

without turn back

and if you lived on the moon

there would be more astronauts than

sand in the sea

more trips to the space than stories

at a bar... at a bar

why dening

that they're the best that put itself

in this place

women

what they ask us, we can

if we can't, it doesn't exist

and if it doesn't exist, we invent it

for you

women

what they ask us, we can

if we can't, it doesn't exist

and if it doesn't exist, we invent it

for you

women

what would have written Neruda

what would have painted Picasso

if muses like you wouldn't exist

we with chauvinism

you to feminism... and at the end

la historia termina en par	the story ends in pair
pues de pareja vinimos y en pareja	for as a couple we came and as a couple
hay que terminar	we have to end
terminar terminar	end end
